WORK EXPERIENCE

UNDP, New York, United States

ICT Senior Assistant, January 2025 – December 2025

- Developed, tested, and maintained internal and public-facing web platforms using HTML, CSS, JavaScript, and CMS tools (WordPress, Webflow).
- Provided technical support and promptly resolved web-related issues in collaboration with development teams.
- Performed ongoing site maintenance and improvements, ensuring security and best practices.

St. Pio Printing Services, Quezon City, Philippines

Web Developer, July 2023 – July 2024

- Developed a responsive website for using HTML, CSS, JavaScript, PHP, and WordPress/Beaver Builder.
- Wrote clean, maintainable code and optimized sites for performance and responsiveness.

Findem, Inc., Pasig, Philippines

Research Analyst, April 2024 – January 2025

- Collaborated with cross-functional teams to deliver high-quality, on-brand digital experiences on the company's recruitment platform.
- Analyzed and collected data from the company's own software tool and various vendors with accuracy and productivity.

Factset, Inc., Taguig, Philippines

Research Analyst, May 2023- April 2024

- Collected, analyzed, and validated financial and market data with strong attention to detail.
- Identified discrepancies and implemented solutions, demonstrating strong problem-solving skills.

Monash University Malaysia, Subang Jaya, Malaysia

Researcher, February 2021- September 2021

- Programmed an Arduino-based instrument using MatLab and C
- Developed an instrument focusing on the biophysics of urea detection, which was adopted by future research groups
- Analyzed time-series data collected from the instrument using Python
